I am pleased to provide you a copy of Herman Smith's November 9, 2000, memorandum which eliminates filling out Form 2110.1C as a way of documenting exceptions to the Federal Administrative Charge for non-federal sponsors that are small businesses, non-profit organizations, institutes of higher education or state or local governments. This applies to all reimbursable work with non-federal sponsors, including Work for Others Non Federal Sponsor Agreements (Funds-In Agreements), Cooperative Research and Development Agreements, User Facility Agreements, Technology Deployment Center Agreements and University of California Directed Research and Development projects.

Please call Bob Davidson at (505) 845-4310 if you have any questions or require additional information.
